## EXPERIENCE

### Frontend Developer

DACXI Chain - 2022 ~ 2023 / 3 months

- Collaborated on the company's rebranding project at DACXI Chain, contributing to changes in the design system and ensuring a stable redesign with minimal layout disruptions.
- Played an active role in code correction in DACXI's main platform, the exchange, improving its functionality, stability, and security.

### Frontend Developer

Klever.io - 2022 / 5 months

- Integrated web3 into the Klever.io swap platform, allowing interaction with external cryptocurrency wallets and enabling secure and efficient transactions.
- Wrote unit and end-to-end tests, ensuring code quality and establishing good testing practices, ensuring application stability and reliability.
- Utilized React Query to optimize overall application performance, improving user experience and speeding up response time.
- Implemented Bugsnag to monitor and capture potential errors in the application, enabling proactive detection and an agile approach to problem resolution.

### Frontend Developer

SUTHUB - 2022 / 8 months

- Accelerated the development of landing pages, optimizing speed using Vuetify as the primary tool.
- Developed and implemented custom payment checkouts for insurance websites, improving user experience and increasing efficiency in the purchasing process.
- Made code corrections in Suthub's main platform, ensuring stability and enhancing system functionality.
- Actively collaborated on a dynamic PDF generation project, performing configurations and organizing HTML to ensure efficient generation of personalized documents.

### Frontend Developer

Freelancer - 2021 / 10 meses

Worked as a freelancer developing small projects for friends and local establishments, utilizing technologies such as Javascript, HTML, CSS, and Bootstrap.
